ELSEVIER

Cognition 88 (2003) 333–334

COGNITION

www.elsevier.com/locate/cognit

Contents of volume 88

Number 1

Regular articles

PHILLIP WOLFF (*University of Memphis*)
Direct causation in the linguistic coding and individuation of causal events, 1–48

REBECCA TREIMAN, BRETT KESSLER (*Washington University*) and SUZANNE BICK (*Wayne State University*)
Influence of consonantal context on the pronunciation of vowels: A comparison of human readers and computational models, 49–78

RACHEL ROBBINS and ELINOR MCKONE (*Australian National University*)
Can holistic processing be learned for inverted faces? 79–107

DIRK KERZEL (*Justus-Liebig-Universität Giessen*)
Attention maintains mental extrapolation of target position: Irrelevant distractors eliminate forward displacement after implied motion, 109–131

Number 2

Regular articles

PATRICK STURT (*University of Glasgow*), FABRIZIO COSTA (*University of Florence*), VINCENZO LOMBARDO (*Università di Torino*) and PAOLO FRASCONI (*University of Florence*)
Learning first-pass structural attachment preferences with dynamic grammars and recursive neural networks, 133–169

BRET K. HAYES (*The University of New South Wales*), KATRINA FOSTER and NAOMI GADD (*The University of Newcastle*)
Prior knowledge and subtyping effects in children's category learning, 171–199

DEBORAH KELEMEN (*Boston University*)
British and American children's preferences for teleo-functional explanations of the natural world, 201–221

WILFRIED KUNDE (*Martin-Luther University Halle-Wittenberg*), ANDREA KIESEL and JOACHIM HOFFMANN (*Julius-Maximilians University of Würzburg*)
Conscious control over the content of unconscious cognition, 223–242

KATSUMI WATANABE (*California Institute of Technology*)
Differential effect of distractor timing on localizing versus identifying visual changes, 243–257

Number 3

Regular articles

DENIS MARESCHAL and MARK H. JOHNSON (*University of London*)
The "what" and "where" object representations in infancy, 259–276

ADRÉA AGUIAR (*University of Waterloo*) and RENÉE BAILLARGEON (*University of Illinois*)
Perseverative responding in a violation-of-expectation task in 6.5-month-old infants, 277–316

Discussion articles

MICHAEL TOMASELLO (*Max Planck Institute for Evolutionary Anthropology*) and NAMEERA AKHTAR (*University of California*)
What paradox? A response to Naigles (2002), 317–323

LETITIA R. NAIGLES (*University of Connecticut*)
Paradox lost? No, paradox found! Reply to Tomasello and Akhtar (2003), 325–329

Brief articles

DANIELA MAPELLI, ELENA RUSCONI and CARLO UMILTÁ (*Università di Padova*)
The SNARC effect: an instance of the Simon effect? B1–B10

NATALIE SEBANZ, GÜNTER KNOBLICH and WOLFGANG PRINZ (*Max Planck Institute for Psychological Research*)
Representing others' actions: just like one's own? B11–B21

YUYAN LUO, RENÉE BAILLARGEON, LAURA BRUECKNER (*University of Illinois*) and YUKO MUNAKATA (*University of Colorado*)
Reasoning about a hidden object after a delay: evidence for robust representations in 5-month-old infants, B23–B32

SOPHIE DUFOUR and RONALD PEEREMAN (*University of Bourgogne & C.N.R.S.*)
Inhibitory priming effects in auditory word recognition: when the target's competitors conflict with the prime word, B33–B44
